

KIDS EAT SMART CLUB VOLUNTEERS

(students, staff, parents/guardians, community members)

All KES Clubs must comply with all public health directives related to Covid-19.

Our KES Clubs play an important role in ensuring all school age children have food. Our volunteers are crucial to our clubs' success. During the COVID-19 pandemic, our KES Clubs will remain operational under the direction of school administration and the Kids Eat Smart Foundation NL team. Please refer to the KES Foundation Health and Food Safety flyer and adhere to the following guidelines:

- When given permission and before entering the school, volunteers must wear a Level 1 medical face mask and a face shield. (A Level 1 medical mask is a disposable non-surgical 3-ply mask).
- Upon entering the school, volunteers must sign in and authorize a WAIVER and/or Self Declaration.
- Temperature checks may be mandatory.
- Volunteers should be limited to the minimum number per day and limited to minimum number per site overall.
- Volunteers must conduct pre-screening. If volunteers will vary by day, schools are recommended to conduct screening using modified (from April/May) Google Form for recording contact tracing information.
- Volunteers who have travelled outside the province or who feel unwell **MUST STAY HOME** to prevent transmitting infection to others.
- Maximum of 2 (two) volunteers per KES Club area, table, or food station.
- Support social/ physical distancing (2 meters / 2 arm's length).
- Volunteers may create the grab and go food options to make best economical/nutritional options available i.e., food does not have to be purchased pre-packaged, if all standard health and food safety practices are in place when creating individual portions.
- Volunteer shoppers should arrange drop off to the school rather than entering the building, if they are not helping with breakfast.

DIRECTION GUIDED BY NLESD, FOR OUR SCHOOLS KES CLUBS

- Groups should closely coordinate with school administration to ensure all expectations/obligations are identified on both sides.
- Have adequate hand sanitizing stations to accommodate assigned group size.
- Common appliances (microwaves, toasters, etc.) will not be available for student use.
- Outside food from restaurants may not be delivered into schools, as non-essential visitors are not permitted in the school during this time.
